In paragraph 1, the Examiner admitted that claims 1 and 17 are generic. The Applicant submits that at least claims 3-6, 9-10, 18, 21, 30, and 32 are also generic. In addition, for each claim covering the elected species, that claim also reads on at least one additional species identified by the Examiner and, for each species identified by the Examiner, the claims covering the elected species have multiple claims, besides the generic claims, that read on that species. In view of these facts, the Applicant submits that all of the pending claims can be considered together without serious burden on the Examiner. As such, in accordance with MPEP 803, the Applicant submits that the Examiner should withdraw the restriction requirement.

Respectfully submitted,
